1. Product and Company Identification

**Product name**: Insulrap 30, Insulrap 30 SJ, Insulrap 50, Insulrap 50 SJ

**Supplier/Manufacturer**: Refer to the product technical data sheets

**In case of emergency**: Polyguard Products, Inc
3801 South Interstate 45
Ennis, TX 75119
Tel: (800) 541-4994

**In case of emergency**: CHEMTREC, US 1-800-424-9300 International 1-703-527-3887

2. Hazards identification

**Physical state**: Solid

**Odor**: Asphalt (slight)

**Emergency Overview**: WARNING! Product is not flammable but will burn under fire conditions. Eye contact with rubberized asphalt residue on hands can cause irritation. Skin contact with rubberized asphalt can cause irritation. Contact with heated material may cause thermal burns. Inhalation from heated product may cause irritation of nose, throat and respiratory system. Potential cancer hazard based on animal data.

**Potential acute health effects**

**Inhalation**: Slightly irritating to respiratory system if heated to a molten state.

**Ingestion**: No known significant effects or critical hazards.

**Skin**: Slightly irritating to the skin

**Eyes**: No known significant effects or critical hazards.

**Potential chronic health effects**

**Chronic effects**: Contains materials that can cause target organ damage.

**Carcinogenicity**: No known significant effects or critical hazards

**Mutagenicity**: No known significant effects or critical hazards

**Teratogenicity**: No known significant effects or critical hazards

**Developmental effects**: No known significant effects or critical hazards

**Fertility effects**: No known significant effects or critical hazards

**Target organs**: Contains materials which cause damage to the following organs: skin

**Over-exposure signs/symptoms**

**Inhalation**: No specific data

**Ingestion**: No specific data

**Skin**: Adverse symptoms may include the following:
Irritation
Redness

**Eyes**: No specific data

**Medical conditions aggravated by overexposure**: Pre-existing disorders involving any target organs mentioned in this MSDS as being at risk may be aggravated by over exposure to this product.

**See toxicological information (Section 11)**
3. Composition/information on ingredients

</table>

Calcium Carbonate is not in its respirable form and is a constituent of the mixture.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First aid measures

**Eye contact:** Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur.

**Skin contact:** Wash with soap and water. Get medical attention if symptoms occur.

**Inhalation:** Not likely to occur under normal use. Possible exposure to toxic fumes if burned.

**Ingestion:** Not likely to occur under normal use. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.

**Protection of first-aiders:** No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth to mouth resuscitation.

**Notes to physician:** No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

5. Fire-fighting measures

**Flammability of the product:** No specific fire or explosion hazard.

**Extinguishing media:** Use an extinguishing agent suitable for the surrounding fire.

**Suitable**

**Not suitable** None known

**Hazardous thermal decomposition products**

Decomposition products may include the following materials:

- Carbon Dioxide
- Carbon Monoxide
- Sulfur oxides
- Low MW hydrocarbons

**Special protective equipment:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face piece operated in a positive pressure mode.

6. Accidental release measures

**Personal precautions:** No special measures required.

**Environmental precautions:** Not applicable

**Methods for cleaning up** Due to the physical nature of this product, spills are not possible.
7. Handling and storage

**Handling**
Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not get in your eyes or on your skin or clothing. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product and can be hazardous. Do not reuse containers.

**Storage**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well ventilated area away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready to use. Do not store in unlabeled containers.

8. Exposure controls/personal protection

</tbody>
</table>

**Calcium Carbonate** is not in its respirable form and is a constituent of the mixture. Consult local authorities for acceptable exposure limits.
8. Exposure controls/personal protection

**Recommended monitoring procedure:**
If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protection.

**Engineering measures:**
Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminates below any recommended or statutory limits.

**Hygiene measure:**
Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the work station location.

**Personal protection**

</tr>
<tr>
<td>Respiratory:</td>
<td>A respirator is not needed under normal and intended conditions of use.</td>
</tr>
<tr>
<td>Hands:</td>
<td>Chemical resistant gloves</td>
</tr>
</tbody>
</table>

**Environmental exposure control**
Emission from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

**Other adverse effects**: No known significant effects or critical hazards

13. Disposal considerations

**Waste disposal**: The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to SECTION 7; Handling and Storage and Section 8: Exposure Control / Personal Protection for additional handling information and protection of employees.
